October 17, 2011

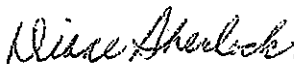

Dear Parent,

As part of the district initiative to develop Student Success Plans, we are introducing students to the Naviance Program, which will enable each student to maintain an electronic portfolio of his or her work. We are very excited about this opportunity because it has been used at the high school with such success. Naviance is a great way to share information between students, teachers, and their parents.

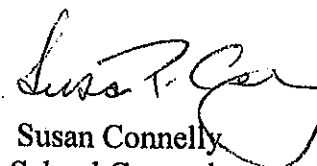

To facilitate this process, students will be meeting in the computer lab with their counselor to create accounts and to learn about the many advantages this program will have to offer. Students will be given an email address to use as their username. These email addresses are currently inactive, but you will be receiving additional information in the future before these addresses are opened to students.

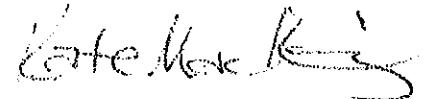

This program will have many advantages for parents as well, so please watch your email for an invitation to create your own account! If you have any questions, please speak with your child's counselor. We are very enthusiastic about the opportunities Naviance has to offer you and your student.

Sincerely

  
Diane Sherlock  
Principal

  
Tina Broccolo  
School Counselor

  
Susan Connelly  
School Counselor

  
Kate MacKinney  
School Counselor
